BASH™
Ballistic Anti-Shock Housing

Overview

The BASH product line consists of small scale, outdoor housings that are designed to protect high quality cameras in mobile applications. All models of the BASH are designed to meet the IP68 ingress protection standard, providing excellent protection from water, dust, marine environments, and vandal abuse. These housings come standard with a 12-point vibration isolation system for maintaining high quality video in extreme applications.

Size & Weight

Product Number	Product Weight	Productimensions
BASH OG	3.6 lbs	8.72" x 8.84" x 4.16"
BASH G-Pro	3.7 lbs	8.72" x 8.84" x 4.16"
