dotworkz systems

Versatile, Virtually Indestructible and Ready for the Extreme

The Dotworkz BR-ACC2 bracket system allows for flexible integration of security accessories onto all models of Dotworkz housings.

Deployments can be customized to meet specific security and surveillance needs by adding antennas, strobe lights, loudspeakers, etc. to any D2 or D3 enclosures.

Made from lightweight, powder-coated aluminum, the BR-ACC2 is built for added longevity and durability, and will increase the effectiveness of security and surveillance systems.

BR-ACC2: Dotworkz Raised Rear Accessory Bracket System

Features:

- Compatible with all Dotworkz D2 and D3 housings
- Powder-coated for durability and protection against corrosion
- Crafted from heavy-duty 8 gauge 5052 Aluminum
- Mounting system for antennas, lights, speakers, etc.
- Integrates using rear mounts on D-Series Enclosures
- Can be mounted directly to wall or integrated with the Dotworkz Pole Mount (BR-MPM1) for various mounting options
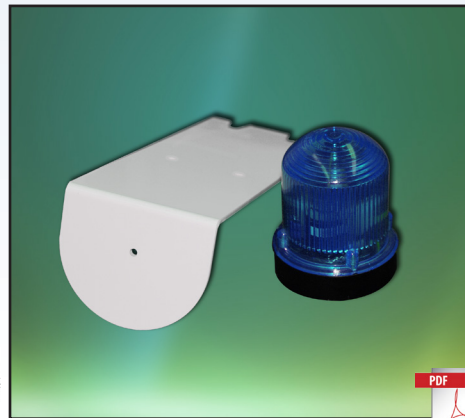

Description:

Dotworkz BR-ACC2 bracket system has been engineered to further expand and customize the already versatile D-Series.
Made from lightweight powder-coated aluminum, the BR-ACC2 bracket system safely mounts antennas, lights, strobe lights, loudspeakers, and other camera accessories onto the D2 and D3 housings.
