

Sky-Pod

Elevated Camera Mount

Self-Supported Tripod for Security and Broadcast Cameras

The **Sky-Pod** is a complete mounting solution for temporary security or broadcast applications. Combines lightweight carbon fiber with versatile hardware compatibility for quick installation. The durable materials provide longevity and reliable rigidity to secure cameras anywhere.

Key Features

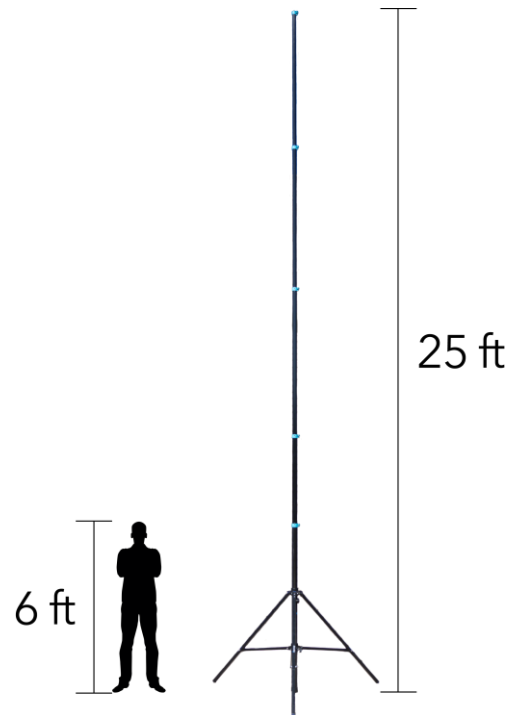

- Quick and simple installation allows practical relocation of cameras
- Single-person installation
- The telescopic mast can be adjusted from 6 ft to 25 ft tall, providing an extensive vantage point for optimal surveillance coverage

Product Attributes

- Surface finish and hardware materials provide corrosion resistance
- Weighing just 35 lbs, the **Sky-Pod** can be easily carried or shipped without requiring a trailer or setup team
- Built with weather-resistant materials to withstand harsh environmental conditions
- The carbon fiber mast extends from 6 ft to over 25 ft in seconds, providing flexible height options
- Heavy duty design built to withstand heavy winds and rain
